PROPOSED NEW HOMES, COMMUNITY FACILITIES & PUBLIC OPEN SPACE

Catesby Estates is preparing proposals for new homes and public open space on College Copse Fields, East of Ecchinswell Road, Bishops Green.

We need your help to ensure we deliver a sensitively designed scheme that is tailored to fit the character of the area and the surrounding landscape, whilst also delivering new community benefits such as affordable homes. We have prepared initial proposals indicatively showing potential layout including vehicle/pedestrian access points and public open space.

Up to 400 new homes providing a well-balanced mix of housing, in-line with the Council's housing mix policy including smaller 1,2 & 3 bed properties

40% affordable homes providing an opportunity for those struggling to get on the housing ladder

Significant public open space for use by the whole community with an opportunity to provide play and leisure facilities for older children and adults such as a pump track for scooters and

BMX bikes or outdoor gym equipment. We are looking to the community for suggestions on what public open space facilities are required in Bishops Green.

Footpath and cycle links around the site and linking to the wider area

We are seeking to retain boundary vegetation where possible and create new areas of planting and open space

There is the opportunity to provide additional community benefits, and we need your help to ensure we deliver the right benefits for the Bishops Green community. We recognise there is a well-used existing village hall and local shop in Bishops Green, and we would welcome feedback on additional community benefits and facilities that local residents would like to see provided alongside the new homes. You can do this using any of the methods listed in this leaflet.

You can find out more about our proposals at: www.catesby-collegecopsefields.co.uk

Community Benefits & Facilities

Alongside new homes there is the opportunity to provide a range of additional community benefits and facilities for local residents.

This includes play and leisure facilities within the public open space, as well as other options which could include a community café, allotments or community orchard, mobile healthcare, sport facilities, improved internet connection or funding towards the long term vitality of the village hall and its community clubs and services.

More details about this and the wider proposals can be found on www.catesby-collegecopsefields.co.uk. It is important we received your feedback on the proposals and the types of benefits and facilities that you think Bishops Green needs.

Following the closure of the public consultation period we will analyse feedback received and update our proposals where appropriate.

What Happens Next?

Catesby Estates will be submitting an Outline Planning Application later in the year. This will set out the principles of the development including the access to the site, the amount of homes, commitments to open space and community facilities and the areas of green space and trees which are to be retained and protected.

Should the application be approved, we will then work with housebuilders to deliver a range of new homes, with the first homes being available late 2023. This consultation process is an opportunity for you to have your say.
